

RISING CHILD SCHOOL

*An English Medium Co-Educational
Affiliated School*

PROSPECTUS

Late Mr. Lal Virendra Bahadur
Founder

*Empowerment & Personal Responsibility
through Education*

School is Fun.....

Welcome to Rising Child

RISING CHILD have been working with little children since 1999 as a new concept in the world of pre-primary/primary education. We were one of the first to bring about professionalism in the field. We provide an unique opportunity for your child to take his/her first step in formal schooling. We are not a franchisee and we strongly believe that personal relationship with the parents help us to bring about the best in your child.

RISING CHILD is situated at PRABHU TOWN and has a large open playground for outdoor activities. We offer excellent facilities for your child to mature and develop in a safe and supportive environment. We have a wide range of equipment, materials and experience with which we extend your child's knowledge. With English as the medium of instruction, the learning experience can be fun at 'RISING CHILD'.

ABOUT US

Rising Child school is a Play / Pre-Primary / Primary School established in 1999 and is located in the heart of Raebareli city.

Rising child school is the start of a child's independent experience away from home. We aim to provide a joyful journey to knowledge and confidence for the Pre-primary / Primary school children. We realize that young children are natural thinker, creative and communicative. RISING CHILD envisions nurturing these qualities that will help children transition from home to main stream schooling.

Our curriculum is child centric and provides a flexible, challenging and child sensitive environment through play based teaching strategies for effective learning. Our integrated curriculum ensures the all round development of the intellectual cognitive, motor, social, creative, physical and emotional skills.

Here the children play and learn with toys, puzzles and beads. Sing and dance with friends, listen to stories, get to know colours, numbers and letters, hold a crayon, paint, scribble, tear and paste.

A RISING CHILD provides the state of the art infrastructure for the toddlers and pre-schoolers to learn through exploration and discovery and has set new a benchmark in the field of pre-school education. Key features include bright spacious, colourful classrooms, splash pool, sand pit, swings, play room, and art facilities.

Manager's Message

Excellence is seen as a journey rather than as something fixed and determined "It is always our vision to achieve excellence in our journey to set high standards. A journey that is sustained, enduring and goes beyond motivation.

We always strive for excellence in our organization with passion , a kind of obsession which is embedded in our members. More importantly we are driven by an internal battle of setting higher benchmarks for our students and constantly stretching out for broader horizons.

Excellence is not just about what the school does, but how the school does it. It is about simultaneously "Doing the right things (the end product) and "Doing things right the process.

- Arvind Srivastava

From Principal's Desk

Dear parents, guardians, alumni and friend
Namaskar and welcome to Rising child school

All of our achievements from 1999 were made possible by our hard work, the sweat and blood of our parents, teachers and the guidance of god. Our parents are our greatest treasures and carriers of traditions and cultures. They have gifted us with roots and wings. Blessed be god and our dearest parents!

The proximate educational aims are firstly, to develop all the powers of the body and soul. The formation of all aspects of a person is taken into consideration: body, senses, memory, imagination, intellect, and will. This aims at developing, disciplining, and directing all the capacities of the human personality. Secondly, education aims at promoting a positive transformation of the person in four areas - social, spiritual, intellectual, and personal - so as to be a good human being.

Since 1999 Rising Child has been rendering its service to the people of Raebareli. First of all, we are grateful to god for being our guide, inspiration and courage. We are grateful to teachers and support staff, We have spent their time working with Rising Child and parents who entrusted us with their children for their formation. Without the goodwill and cooperation of all these people of Rising Child, school could not have reached to the stage where it stands today.

Rising Child school is committed to quality education. Imparting a multi faceted education by developing the mental and physical potentials of students is our objective. Extra co-curricular activities go hand in hand with academic programmes.

I would like to request you to share with us our vision, mission, challenges, goals and objectives of our school. Join us in our vision with your prayers, and any monetary/moral help will always be accepted with gratitude.

Once again thanks a million for your selfless support and looking forward to your whole-hearted cooperation.

Sincerely yours,
Seema Srivastava

Our aims.....

- The school aims at giving your child quality care and guidance and prepares the child to enter a regular formal school.
- To provide a safe, secure and stimulating environment. The safety of the children is of paramount importance to every staff member
- To encourage each child to reach and fulfill his/her individual potential
- To build and maintain your child's confidence in happy and caring surroundings
- To ensure equal opportunity for all children
- To create a partnership with parents to help support and enhance the development of each child
- Individual care and attention by committed and professional staff
- Lots of fun, play and friendship with other children.

Within the group, all children are supported in developing their potential at their own pace. Our regular planning sessions enable us to provide a wealth of experience from which your child can build and expand their knowledge and skills. Records of Progress will be maintained for each child attending pre, primary school. The key areas in which progress is expected to be made are :

- Personal, Social and Emotional Development
- Communication, Language and Literacy
- Mathematical Development
- Knowledge and Understanding of the World
- Physical Development
- Creative Development

Our Curriculum is based on....

Rising Child School curriculum, is scientifically designed keeping in mind how each child can learn best. It is built around the most recent evidence from child psychology, brain based research and experience of leading practitioners.

The curriculum integrates children's physical, intellectual, social and emotional needs. Theme based learning : Children learn better when they can make connections between what they know and the knowledge being imparted to them.

The teaching comes alive with teaching resources such as animation clips, videos, pictures, rhymes; stories, etc. are shown to children running on big screen. Our multimedia corner have computer so that children can learn the concepts of shape, colours, blocks, etc. in an easy and interesting way smart classes are.

Play area is equipped with swings, slides, merry-go-round, tunnels and many other play equipments, the use of all these equipments is very helpful in the development of physical and mental growth of the children.
